/EDUCATION

>> *ITIS Eugenio Barsanti | 2009 - 2014*

Degree in computer science.

>> *University of Padua | 2014 – 2018*

Bachelor's degree in computer science.

I worked in a group on several school projects, in some even as a group leader, organizing the division of tasks and monitoring the quality of work and the achievement of objectives.

/WORK EXPERIENCE

>> *Software Developer*

Retail Solutions S.R.L | 18/09/2017–11/11/2017

Creation of a website using ASP.NET that analyzed the ticketing system used by the company and showed various information with graphs and tables.

>> *Production support*

Accenture Italy | 2018 – 2022

Project: Generali life insurances

- Assisted clients with a diagnosis of software issues and concerns
- Collaborated with software developers to fix problems and implement new functionality
- Backend and Frontend software debugging (Cobol and Java with Proprietary software) with extensive use of Oracle SQL

>> *User Interface Developer*

onrooby GmbH | 15/08/2022 - 30/04/2023

- Designed and implemented user interfaces for online stores
- Further developed the UI/UX of the enterprise resource planning system
- Conducted user research and testing to improve user experience
- Created wireframes, mockups, and prototypes to iterate on design solutions

I successfully achieved agreed goals, even under heavy workloads and changing requirements, and always delivered high-quality work that met the company's expectations.
